Climbing Plants,
Herbaceous and other Plants.

The
**MOUNT ELGON
NURSERIES**

KAMA KOIA FARMS
KITALE
KENYA COLONY

SUPPLEMENTARY LIST

FOR THE 1935 SEASON.

This Supplement includes many new introductions to our Nurseries since the last General Catalogue was issued, especially in the sections for ORNAMENTAL SHRUBS AND TREES and CLIMBING PLANTS. It also incorporates the following sections, previously issued separately:

**BULBOUS AND RHIZOMATOUS PLANTS
HERBACEOUS AND OTHER PLANTS
AVENUE AND PLANTATION TREES
HEDGE PLANTS
MISCELLANEOUS PLANTS AND TREES.**

SPECIAL NOTICE. Our method of supplying plants established in pots has been so well received by our Customers that we are extending the system to other sections of our Nurseries. The pots are merely broken away, and the plants continue their unchecked growth when placed in permanent positions. Only a nominal charge is made for the wooden pots employed. In the absence of instructions to the contrary, we supply goods in this manner when possible.

ROSES.

By arrangement with Mr. H. Grahame Bell, we hold his Agency for Roses in the Trans-Nzoia District, and we carry a range of Roses grown at Closeburn Nurseries, Nairobi, a full list of which is issued separately.

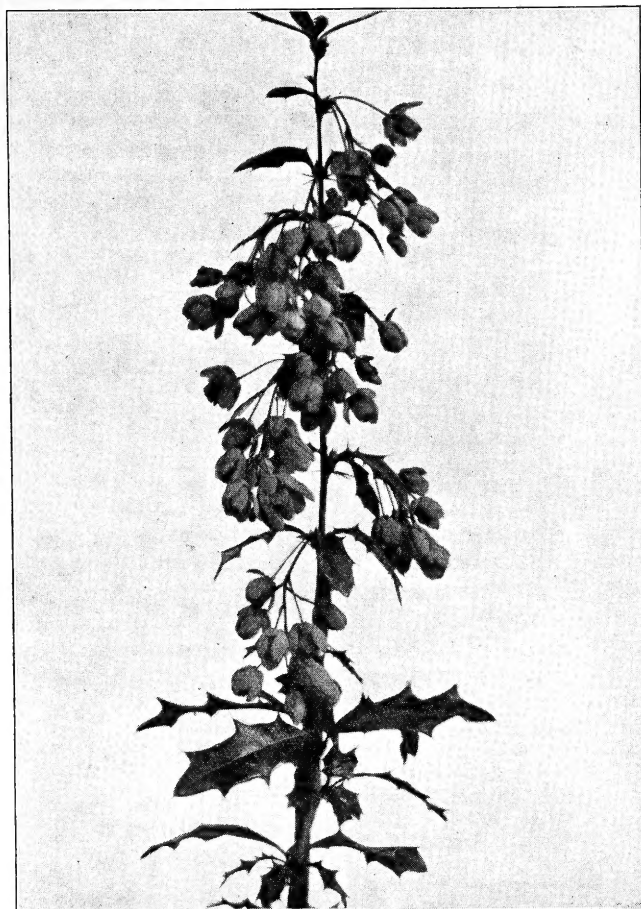

**Air Mail Delivery is made to Europe and South Africa.
See General Catalogue.**

ORNAMENTAL SHRUBS AND TREES.

New Introductions for 1935.

NOTES.

BERBERIS

Copyright.

BERBERIS. (The Barberry.)

Each
Shs. Cts.

Well-known and easily grown deciduous and evergreen shrubs, producing orange and yellow flowers, followed by red, purple or black fruits. (*Illustrated.*)

Dictyophylla.	Deciduous ; height 6 feet	4	00
Prunosa.	Evergreen ; height 10 feet	4	00
Sargentiana.	Evergreen ; height 6 feet	4	00
Vulgaris purpurea.	Deciduous ; height 8 feet	4	00

The following can also be supplied in limited quantity :

Beaniana	4	00
Jamesiana	4	00
Wisley Hybrids	4	00

ORNAMENTAL SHRUBS AND TREES—*continued.*

	Each	
	Shs. Cts.	NOTES.
ÆSCULUS		
Parviflora. A white-flowering Chestnut of shrubby habit	10 00	
ARAUCARIA		
Cunninghamii. (Hoop Pine.) Closely allied to the Norfolk Island Pine. A magnificent tree well suited to the country	4 00	
CALLISTEMON		
Regulosus. (Cream Bottle Brush)	1 00	
<i>See also page 4 of General Catalogue.</i>		
GEDRELA		
Toona. (Indian Toon Tree.) A fine quick-growing shade tree; also suitable for avenues	1 00	
CERATONIA		
Siliqua. (Carob Bean) ... per dozen, Shs.	4 00; 0 50	
CISTUS.		
Beautiful evergreen shrubs which appreciate warmth and full sun. Commonly known as Rock Roses from the fact that the flowers resemble large single Roses.		
Hirsutus. A hairy-leaved variety bearing white flowers; height about 3 feet	4 00	
Incanus. Bears purple flowers; height about 3 feet ...	4 00	
Laurifolius. Flowers white with a yellow spot at base; height 8 feet	4 00	
<i>See also page 4 of General Catalogue.</i>		
CLERODENDRON		
Fargessi. A shrub with dark leaves and white flowers; quick-growing. Height 10 feet	4 00	
Fœtidum. Quick-growing shrub, with dark reddish leaves and clusters of rose-pink flowers	4 00	
<i>See also page 4 of General Catalogue.</i>		
COLUTEA		
Arborea. (Bladder Senna.) A shrub bearing orange Pea-like flowers, followed by red inflated pods	2 50	
CORDYLINE		
Indivisa. (Dracæna.) A palm-like shrub indigenous to New Zealand	1 00	
COTONEASTER		
Franchete. Resembles in habit C. pannosa, but bears pink flowers and orange fruit	1 00	
<i>See also page 6 of General Catalogue.</i>		
CREBIA		
Brownii. A beautiful indigenous tree bearing sprays of pale pink Lupin-like flowers; very sweet scented ...	1 00	
CURCULIGO		
Recurvata. (Zanzibar Stemless Palm)	1 00	

ORNAMENTAL SHRUBS AND TREES—*continued.*

ECHIU.

Each
Shs. Cts.

NOTES.

Two new varieties of Echium are introduced, following the deservedly popular E. fastuosum, offered on page 7 of General Catalogue.

Bourgæanum. Quick-growing and reaching a height of 11 feet. Rose-coloured flowers produced in dense spikes **4 50**

Wildpretii. White hairy leaves; flowers rose **4 50**

ERYTHRINA.

In addition to Erythrina Crista-galli, described on page 6 of General Catalogue, we offer the following new introductions:

Indica. A broad tree. It also reaches a height of 20 feet; scarlet flowers **5 00**

Umbrosa. Shady tree with orange-coloured flowers ... **1 00**

Velutina. A large variety from tropical America. Grows to a height of 30 feet and bears orange-scarlet flowers **5 00**

FUCHSIA

Boliviana. A dwarfer and more compact form of F. corymbiflora scarlet; bears long tassels of deep red flowers **3 00**

See also pages 8 and 9 of General Catalogue.

GARDENIA

Fortunei. One of the varieties best suited to local conditions each, Shs. **3 00** to **4 00**

See also page 9 of General Catalogue.

GENISTA

Canariensis. (Florist's Broom) **1 00**

HIBISCUS.

Lilac and crimson. A new variety, with lilac petals and crimson centre **3 00**

See also page 9 of General Catalogue.

HYDRANGEA

Hortensis. Hybrids, in variety **3 00**

Hortensis. Named varieties **5 00**

HYPERICUM. (St. John's Wort.)

A large genus of easily cultivated hardy shrubs, bearing yellow flowers.

Calycinum. Dwarf variety, growing about one foot high; spreading habit **1 00**

Canariense. A large variety which reaches a height of about 15 feet **1 00**

Patulum Henryi. Large-flowered variety; height 3 feet **1 00**

ORNAMENTAL SHRUBS AND TREES—*continued.*

JACOBINIA

Each
Shs. Cts.

NOTES.

Coccinea. Evergreen sub-shrub. Grows to a height of 5 feet and bears large heads of tubular pink flowers ... **3 50**

LIRIODENDRON

Tulipifera. (Tulip Tree.) A hardy deciduous tree from North America. Very slow growing, but may reach a height of 200 feet. Bears yellow and red Tulip-like flowers ... **3 50**

MAGNOLIA. Evergreen ; pale mauve flowers ... **4 00**

MIMOSA

Pudica. (Sensitive Plant.) An interesting addition to the garden. The leaves close individually when touched. Height one foot ... **2 00**

OLEA

Chrysophylla. (Brown Olive.) Indigenous per dozen, Shs. **4 00; 0 50**

PEPPER TREE. (*Schinus molle*) per dozen, Shs. **4 00; 0 50**

SALIX

Incana. (Willow.) A large tree adapted to moist situations ; bears catkins before the leaves ... **4 00**

SPIRÆA

Aitchisonii. A native of Afghanistan, producing very large panicles of white flowers. Height 12 feet ... **3 00**

Arborea. (Tree Spiræa.) Grows to a height of 20 feet and bears plumes of cream-coloured flowers ... **3 00**

Japonica, Anthony Waterer. A dwarf shrub with crimson flowers ... **3 00**

See also page 12 of General Catalogue.

VERONICA (syn. Hebe).

The shrubby Veronics are well suited to all cooler positions. They are very free flowering and resistant to drought.

Carolliana. Lilac-blue ; height 3 feet ... **2 00**

Parviflora. Racemes of white flowers ; grows to a height of 20 feet ... **2 00**

Rubra. Dark red flowers ; height 18 inches ... **2 00**

Traversii. Small shrub bearing white flowers ... **2 00**

See also page 13 of General Catalogue.

BULBOUS AND RHIZOMATOUS PLANTS.

Many of these subjects can only be supplied in the season when bulbs are dormant.

NOTES.
